

Guidelines for the display case in the Library Building

1. The display case is in the foyer of the ground floor of the Library Building. The display is looked after by the University Library. Mrs Sarah Niederer is responsible for this task.
2. New publications of University faculty members (full and non-tenured professors, emeritus and honorary professors, associate professors, habilitated and full-time lecturers) will be displayed.
3. Bound or presentation-finished independent publications (monographs, working papers, etc.) and reprints or offprints of articles in scientific journals will also be displayed.
4. The publications are rotated approximately every six months.
5. It is in the interest of the authors to present their work to the public themselves. The scarce resources of the Library may not be used for this purpose, however. The authors are therefore asked to forward a copy for presentation in the display case directly to Mrs Sarah Niederer of the HSG Library.
